Smart Growth America Coalition Member Application: **Member Compact**

Smart Growth America is a coalition of national, state and local partners working to cultivate the vibrant towns, cities and neighborhoods we call home.

We believe that the American people deserve healthy cities, towns and suburbs; homes that are both affordable and close to jobs and activities; fewer hours in traffic and more opportunities to enjoy recreation and natural areas; air and water of the highest quality; and a landscape our children can be proud to inherit. We believe that every citizen deserves a much greater say, and better options, in choosing their community's future.

To that end, our members work with citizens across the country to preserve our built and natural heritage, promote fairness for people of all backgrounds, fight for high-quality neighborhoods, expand choices in housing and transportation and improve poorly conceived development projects.

_____ (organization name) supports Smart Growth America's mission and agrees to uphold the membership expectations outlined here:
